RELEASE EASE 234 TFP-HP

Highly porous PTFE coated fiberglass fabric

■ DESCRIPTION

Release Ease 234 TFP-HP is a 1080 style glass fabric with a reduced PTFE content for increased porosity. Release Ease PTFE Coated Fiberglass Fabrics will provide release from all conventional resin systems. Porous products will allow excess resin, volatiles and trapped air to escape into the breather during cure while non-porous products will retain resin. Excellent with resin infusion processing. Release Ease products have a continuous service temperature to 550 °F (288 °C).
