ECONOSTITCH G

Polyester peel ply with black tracers

DESCRIPTION

Econostitch G is an economical, heat set and scoured peel ply with good performance when used with both polyester and epoxy resins. Econostitch G has black tracers with high visibility to reduce the risk of peel ply being left on the part.

Our Econo peel plies are designed to work in resin infusion or hand lay-up processes. Econostitch eliminates the need for sanding or abrading on your composite laminate.
